Computer Programming II Mid

Mid01

I haven't developed it.

Mid02

I only developed the user interface and the error check. (I can open the input file but no further processing.)
As for the others, I haven't developed it.

Mid03

I only developed the user interface and the error check. Another is done is the new .bmp file header.
As for the other, I haven't developed it.

Mid04

Type make and ./mid04 to run the program.

I am still solving why there is a 54-byte moving of my result. The other issues are fine.

Mid05 Comment
